The Fund is rated 5. The Fund is in this specific category due to the nature of its investments, meaning that the historical returns the SRRI is based on, has shown a level of volatility higher than 10% but less than 15%.

The risk category is not guaranteed and may change over time as historical data does not necessarily give a reliable indication of the future risk profile of the Fund.

Particular risks not adequately captured by the risk indicator but materially relevant include:

* Portfolio Currency risk: The portfolio value of a fund which holds securities in currencies other than its reference currency can be affected by changes in exchange rates.
